**From:** Mohr, Ashley  
**Sent:** Wednesday, June 15, 2016 2:11 PM  
**To:** Robinson, Jeffrey <Robinson.Jeffrey@epa.gov>; Hansen, Mark <Hansen.Mark@epa.gov>  
**Subject:** RE: Earthjustice - Crossett, AR (Questions)

Mark,

Here is a summary of the recent/pending permitting history for the facility, as well as, responses to the Q9 and Q10:

Recent Permit History (Crossett Facility Currently Operates under Title V Permit No. 0597-AOP-R17) –

- Title V Minor Modification issued on 2/23/16
  - Updated NESHAP applicability determination and revised permit requirements to reflect the update. Removed a source from permit that was not ever constructed. Replaced dregs washer with a new pre-coat filter.
- Title V Significant Modification pending (draft permit issued 4/20/16)
  - Burner replacement on No. 8 Tissue Machine (associated PSD action). Decreases in permitted emissions limits, with exception of small increases in CO. CO increases below PSD construction permitting thresholds, but full PSD analysis conducted due to change in a permit limit that was associated with previous BACT determination.
- Title V Renewal pending (permit application submitted 2/1/16)
  - Required renewal of Title V permit, includes changes to permits including emission calculations based on updated emission factors.

Re: Q9

Re: Q10 –

- The renewal for Title V Permit No. 0597-AOP-R16 was submitted to ADEQ on February 1, 2016.
- The Arkansas Title V program allows ADEQ up to 18 months to act on a complete Title V application (Reg. 26.502).

- We have not received a specific timeline regarding action on this permit action, but can follow-up with ADEQ for a status update, as necessary. According to ADEQ's permit application database, the renewal application was determined to be administratively complete on 2/09/2016.

If you have any questions regarding these responses or require additional feedback, let me know.

Thanks,

*Ashley*

**Subject:** RE: Earthjustice - Crossett, AR (Questions)

Good morning, All – We asked Earthjustice to send us their questions in advance in an effort to make our call as productive as possible. Please see below. Thanks! -- Tressa

\*\*\*\*\*

Hello Tressa,

Thank you, once again, for setting-up this call. Here are some of our questions:

1. What happened to containment area 1 (part of the wastewater system)? What, if anything, replaced it?
2. Any theories of what is causing the health problems in the community?
3. Are there any plans to address the defects found in the multimedia compliance inspection report?
4. How much notice did Georgia Pacific receive before the multimedia compliance inspection?
5. The wastewater system for Georgia Pacific has specific permit limits on the amount of air pollutants that can be emitted. Is there any way to determine compliance with these permit limits?
6. Has anyone tested or considered testing the soil?
7. Has anyone tested or considered testing for VOCs?
8. NPDES permit – why is Georgia Pacific allowed to include a creek and lake, after Georgia-Pacific's discharge point, as part of their wastewater treatment?
9. Is any additional testing being planned as part of the NPDES or Title V renewals?
10. What is the timeline on the NPDES and Title V permits?
11. What resources are available for testing in light of this being "making a visible difference" community?
12. The citizens reference receiving a questionnaire from ADEQ, is anyone aware of what this is?

Thanks again, and I look forward to talking with you again on Thursday.

Best,  
Bradley

Good morning, All – We asked Earthjustice to send us their questions in advance in an effort to make our call as productive as possible. Please see below. Thanks! -- Tressa

\*\*\*\*\*

Hello Tressa,

Thank you, once again, for setting-up this call. Here are some of our questions:

1. What happened to containment area 1 (part of the wastewater system)? What, if anything, replaced it?
2. Any theories of what is causing the health problems in the community?
3. Are there any plans to address the defects found in the multimedia compliance inspection report?
4. How much notice did Georgia Pacific receive before the multimedia compliance inspection?
5. The wastewater system for Georgia Pacific has specific permit limits on the amount of air pollutants that can be emitted. Is there any way to determine compliance with these permit limits?
6. Has anyone tested or considered testing the soil?
7. Has anyone tested or considered testing for VOCs?
8. NPDES permit – why is Georgia Pacific allowed to include a creek and lake, after Georgia-Pacific's discharge point, as part of their wastewater treatment?
9. Is any additional testing being planned as part of the NPDES or Title V renewals?
10. What is the timeline on the NPDES and Title V permits?
11. What resources are available for testing in light of this being "making a visible difference" community?
12. The citizens reference receiving a questionnaire from ADEQ, is anyone aware of what this is?

Thanks again, and I look forward to talking with you again on Thursday.

Best,  
Bradley

Mark,

This is what we received. It's really not a questionnaire at all. There are questions peppered throughout. It runs the gamut from Air to Water issues. Also, fyi, I attended a public hearing this past week down in Crossett on a proposed modification to the paper mill permit. The group who presented the attached doc was present at the hearing and made comments on the record (and submitted comments as well).

**Subject:** Georgia Pacific Crossett

Stuart – We have a call later this week with Earthjustice regarding their questions about GP Crossett. Do you have any knowledge of a questionnaire that might have been sent to residents around Crossett from ADEQ, or any knowledge of if one might have come from ADH?

---

Mark,

This is what we received. It's really not a questionnaire at all. There are questions peppered throughout. It runs the gamut from Air to Water issues. Also, fyi, I attended a public hearing this past week down in Crossett on a proposed modification to the paper mill permit. The group who presented the attached doc was present at the hearing and made comments on the record (and submitted comments as well).

Subject: The Company - Current & Proposed  
To: The Company  
From: The Company  
Date: 12/15/2015  
Time: 10:00 AM

The following is a summary of the meeting held on 12/15/2015.

The meeting was held on 12/15/2015 at the company's headquarters. The meeting was attended by the following individuals: [List of names]. The meeting was chaired by [Name].

### Agenda

The agenda for the meeting was as follows:

#### 1. Review of the meeting minutes from the previous meeting.

The minutes from the previous meeting were reviewed and approved. The minutes were found to be accurate and complete.

The next item on the agenda was the review of the company's financial performance for the third quarter of 2015. The company's financial performance was reviewed and found to be satisfactory.

The final item on the agenda was the review of the company's strategic plan for 2016. The strategic plan was reviewed and found to be comprehensive and realistic.

### 2. Review of the company's financial performance for the third quarter of 2015.

The company's financial performance for the third quarter of 2015 was reviewed. The company's revenue for the third quarter was \$1.2 million, an increase of 10% over the second quarter. The company's net income for the third quarter was \$0.2 million, an increase of 20% over the second quarter.

### 3. Review of the company's strategic plan for 2016.

The company's strategic plan for 2016 was reviewed. The strategic plan for 2016 focuses on increasing the company's revenue by 15% and reducing its expenses by 10%. The strategic plan for 2016 also includes a number of other initiatives, including the development of new products and the expansion of the company's market.

**To:** Robinson, Jeffrey <Robinson.Jeffrey@epa.gov>; Hansen, Mark <Hansen.Mark@epa.gov>  
**Subject:** RE: Earthjustice - Crossett, AR (Questions)

Mark,

Here is a summary of the recent/pending permitting history for the facility, as well as, responses to the Q9 and Q10:

Recent Permit History (Crossett Facility Currently Operates under Title V Permit No. 0597-AOP-R17) –

- Title V Minor Modification issued on 2/23/16
  - Updated NESHAP applicability determination and revised permit requirements to reflect the update. Removed a source from permit that was not ever constructed. Replaced dregs washer with a new pre-coat filter.
- Title V Significant Modification pending (draft permit issued 4/20/16)
  - Burner replacement on No. 8 Tissue Machine (associated PSD action). Decreases in permitted emissions limits, with exception of small increases in CO. CO increases below PSD construction permitting thresholds, but full PSD analysis conducted due to change in a permit limit that was associated with previous BACT determination.
- Title V Renewal pending (permit application submitted 2/1/16)
  - Required renewal of Title V permit, includes changes to permits including emission calculations based on updated emission factors.

Re: Q10 –

- The renewal for Title V Permit No. 0597-AOP-R16 was submitted to ADEQ on February 1, 2016.
- The Arkansas Title V program allows ADEQ up to 18 months to act on a complete Title V application (Reg. 26.502).
- We have not received a specific timeline regarding action on this permit action, but can follow-up with ADEQ for a status update, as necessary. According to ADEQ's permit application database, the renewal application was determined to be administratively complete on 2/09/2016.

If you have any questions regarding these responses or require additional feedback, let me know.

Thanks,

*Ashley*

Good morning, All – We asked Earthjustice to send us their questions in advance in an effort to make our call as productive as possible. Please see below. Thanks! -- Tressa

\*\*\*\*\*

Hello Tressa,

Thank you, once again, for setting-up this call. Here are some of our questions:

1. What happened to containment area 1 (part of the wastewater system)? What, if anything, replaced it?
2. Any theories of what is causing the health problems in the community?
3. Are there any plans to address the defects found in the multimedia compliance inspection report?
4. How much notice did Georgia Pacific receive before the multimedia compliance inspection?
5. The wastewater system for Georgia Pacific has specific permit limits on the amount of air pollutants that can be emitted. Is there any way to determine compliance with these permit limits?
6. Has anyone tested or considered testing the soil?
7. Has anyone tested or considered testing for VOCs?
8. NPDES permit – why is Georgia Pacific allowed to include a creek and lake, after Georgia-Pacific's discharge point, as part of their wastewater treatment?
9. Is any additional testing being planned as part of the NPDES or Title V renewals?
10. What is the timeline on the NPDES and Title V permits?
11. What resources are available for testing in light of this being "making a visible difference" community?
12. The citizens reference receiving a questionnaire from ADEQ, is anyone aware of what this is?

Thanks again, and I look forward to talking with you again on Thursday.

Best,  
Bradley

**To:** 'Spencer, Stuart'  
**Subject:** Georgia Pacific Crossett

Stuart – We have a call later this week with Earthjustice regarding their questions about GP Crossett. Do you have any knowledge of a questionnaire that might have been sent to residents around Crossett from ADEQ, or any knowledge of if one might have come from ADH?

---

## Hansen, Mark

Good morning, All – We asked Earthjustice to send us their questions in advance in an effort to make our call as productive as possible. Please see below. Thanks! -- Tressa

\*\*\*\*\*

Hello Tressa,

Thank you, once again, for setting-up this call. Here are some of our questions:

1. What happened to containment area 1 (part of the wastewater system)? What, if anything, replaced it?
2. Any theories of what is causing the health problems in the community?
3. Are there any plans to address the defects found in the multimedia compliance inspection report?
4. How much notice did Georgia Pacific receive before the multimedia compliance inspection?
5. The wastewater system for Georgia Pacific has specific permit limits on the amount of air pollutants that can be emitted. Is there any way to determine compliance with these permit limits?
6. Has anyone tested or considered testing the soil?
7. Has anyone tested or considered testing for VOCs?
8. NPDES permit – why is Georgia Pacific allowed to include a creek and lake, after Georgia-Pacific's discharge point, as part of their wastewater treatment?
9. Is any additional testing being planned as part of the NPDES or Title V renewals?

10. What is the timeline on the NPDES and Title V permits?
11. What resources are available for testing in light of this being "making a visible difference" community?
12. The citizens reference receiving a questionnaire from ADEQ, is anyone aware of what this is?

Thanks again, and I look forward to talking with you again on Thursday.

Best,  
Bradley

Good morning, All – We asked Earthjustice to send us their questions in advance in an effort to make our call as productive as possible. Please see below. Thanks! -- Tressa

\*\*\*\*\*

Hello Tressa,

Thank you, once again, for setting-up this call. Here are some of our questions:

1. What happened to containment area 1 (part of the wastewater system)? What, if anything, replaced it?
2. Any theories of what is causing the health problems in the community?
3. Are there any plans to address the defects found in the multimedia compliance inspection report?
4. How much notice did Georgia Pacific receive before the multimedia compliance inspection?

5. The wastewater system for Georgia Pacific has specific permit limits on the amount of air pollutants that can be emitted. Is there any way to determine compliance with these permit limits?
6. Has anyone tested or considered testing the soil?
7. Has anyone tested or considered testing for VOCs?
8. NPDES permit – why is Georgia Pacific allowed to include a creek and lake, after Georgia-Pacific's discharge point, as part of their wastewater treatment?
9. Is any additional testing being planned as part of the NPDES or Title V renewals?
10. What is the timeline on the NPDES and Title V permits?
11. What resources are available for testing in light of this being "making a visible difference" community?
12. The citizens reference receiving a questionnaire from ADEQ, is anyone aware of what this is?

Thanks again, and I look forward to talking with you again on Thursday.

Best,  
Bradley

### **Conference Call with Earthjustice on Crossett, Arkansas**

Date: Thursday, June 16, 2016

Time: 2:00 - 3:00 p.m. Central Standard Time (3:00 – 4:00 p.m. EST)

Location: Regional Counsel Conference Room (13th Floor - 1302)

Call-In Number: 1-866-299-3188

Conference Code: 214-665-2261

**Purpose:** This is a follow-up to the previous conference call conducted on May 25, 2016 with staff from Earthjustice, the EPA Headquarters Office of Environmental Justice, and OEJTIA. The purpose of this call is to provide additional information from EPA Region 6 programs on activities in Crossett, AR, related to the National Enforcement Investigation Center inspection conducted in February 2015 and the wastewater treatment system and permit at the local paper facility. Earthjustice has been contacted by residents of Crossett regarding their environmental concerns.
